information received from Myton th, states that thousands of dollars

are to be expended in the near future upon the reclamation of lands in the unital Indian reservation. Charles L. Davis acting Indian agent has resolved to make the Indians cultivate/their land or lose the title thereto. It is stated that the 1206 Indians now on the reservation are the owners of many thousands of acres of the best land in the tate and that irrigation water in plenty to be had for use in cultivation.

A bill has been presented to congress sking for an appropriation of \$3,500,000 with which to pay the balance on a indiment against the United States in favor of the Indians, obtained more than a var ago. The action upon which the judgment was given came as a result of the sale of Indian land in Colorado, the proceeds of which were to be given to the Ute Indians. It is stated that only \$1,250,000 of the \$5,000,000, at which the ladians were valued, has been received to the Indians. With the receipt of the to be expended in the near future be lands were valued, has been rece the Iudians. The range of trained animals, other than dogs, now being exhibited on the American and continental stages is almost limitless. Among all the different varieties that are being put through their paces, however, it is claimed by competent authorities and trainers that thoroughbred Shetland ponies offer as difficult a problem in their training as any experienced animal man cares to meet with. It is not that the ponies are victous or ill-tempered, but they are exceedingly slow to comprehend what is expected of them apparently, and they do not easily remember the things they are taught to do. For this reason a troupe of trained Shetland ponies is raraly seen on the vaudeville stage of this country and by the same token interest attaches to the announcement by Manager McCoy of the Empress that, beginning to-day at that theater, the new bill which opens this afternoon will be headed by BETTER PRINTING. day at that theater, the new bill which opens this afternoon will be headed by a troupe of Shetlands so perfectly trained that, it is claimed, there is nothing to equal their act to be found at present in this country.

Alexander Bevani's Romany Opera company the headliner at the Orphoum this week, is proving to be a strong drawing card from the fact that the selections sung are taken from operas that appeal. They appear in a brilliant scenic production entitled "La Festa Di Mezz' Agosto." their programme consisting of a group of both grand opera airs and folk songs, which comprises such light Italian dittles as the well-known and popular "O, Maria, Mari," and "Funiculi-Funiculia."

"A Woman's Way," Grace George's most successful play, which the Carrick company is presenting this week, was released for stock company use but a short time ago. So great has been the demand for the play in the east that it was not until this time that the Garrick could secure the playing rights for local production. The manner in which it has strack the public's fancy at the Garrick since Sunday night, however, confirms the management's judgment when it decided to produce the play.

"Over Night," one of the most amusing of the recent comedies, is to be seen at th Colonial theater for three nights and a matinee, beginning Thursday night. It will be produced locally under the direction of William A. Brady. The play was written by Philip H. Bartholomae, a young man who had not previously written for the stage, but the place's unqualified success has placed him in the front rank of native playwrights. It is said that the young playwright has constructed a comedy that is extremely funny, yet never transcends the bounds of good taste.

"Graustark" will be the attraction at the Colonial for one week, beginning Sun-day night. In the adaptation of the book to the stage the dramathat's desire was to get the correct atmosphere, and for this reason he spent one summer kodak-ing through Europe; consequently every scene is a replica of old world royal in-

GOVERNOR APPOINTS WAYNE COUNTY MAN

William Heaps of Teasdale, Wayne county, was appointed vesterday by Governor William H. Spry as county commissioner for that county. The new commissioner succeeds D. N. Hickman, elected in December, 1909, for a four veers' term, who recently resigned. Hickman's successor was not elected by the board of commissioners within the time specified by law and the executive named Heaps to fill the varancy.

vines, for the adornment of our pub-lic grounds and streets and the beautifying and improvement of our private places of abode.

ervance of this beautiful springtime custom.

Practical and useful in its nature, the custom is none the less filled with subtle suggestions of life's deepest mystery, and it is in its value as an inspiration to the nobler and higher things of life that the day appeals with such irresistible force. Teeming with practical lessons in the responsibilities that attach to the care of living things, in the obligations that go with prosession, in the joy of beautiful surroundings, the day stands alone as the most suggestive of all our national observances.

I most heartily commend Arbor day and its purposes to the people of litch, urging that business be suspended on that day, so that all may have opportunity to observe it in spirit and in truth.

When the blood becomes infected with the virus of Contagious Blood Poison, the symptoms are soon manifested. The mouth and throat ulcerate, copper-colored spots appear, a red rash breaks out, the hair begins to come out, and usually sores and ulcers show themselves on different parts of the body. At the first sign of the disease S. S. S. should be taken, for the trouble is too powerful and dangerous to trifle with. If allowed to run on the tendency is to work down and attack the bones and nerves, and somecopper-colored spots appear, a red rash breaks out, the hair begins to come trouble is too powerful and dangerous to trifle with. If allowed to run on the tendency is to work down and attack the bones and nerves, and sometimes it makes a complete physical wreck of the sufferer. The disease can make no such headway if S. S. is commenced and used according to directions; its progress can be stopped, the poison removed, and health preserved. S. S. S. goes into the blood and removes the insidious virus, cleanses the circulation and makes a complete and permanent cure by driving out the cause. S. S. HELP IN PAVING

Pelitions were filed with the city recorder yesterday asking the city commission to order the paving and grading of certain streets. A petition signed by twenty-six property owners on Fifth South, between Second East and Fifth South, between Second East and Fifth East streets, asks for the paving of that thoroughfare. Residents on Tenth East, between Belmont avenue and Herbert avenue, want that portion of the street graded.

The Jensen Creamery company and the Utah Ice & Storage company and the Utah Ice & Storage company and the Utah Ice & Storage company intend paving their yards, a strip 500 feet long and from forty to seventy-five feet wide, and ask that the city pave Fourth West street, between Second and Third South between Fourth West and Fifth West streets. The suggestion is made that the Denver & Rio Grande railroad be required to pay for the major portion of this improvement.

FINE CATTLE EXHIBIT

Hugh J. Cannon, acting in behalf of Cannon Bros., yesterday requested Secretary H. S. Ensign of the State Fair association to reserve for his company sixteen stalls at the approaching exposition for an exhibit of Jersey cattle. He also reserved the privilege of increasing the number of stalls should that be found necessary, as he anticipates that it will. Secretary Ensign said yesterday that Utah makes one of the best showings in Jersey cattle in the country. Last year the exhibit at the fair here exceeded in excellence the Jersey display made at the National Dairy show. He expects that at the Utah exposition next autumn the showing will be still better in every respect.
